in a nutshell

My PhD work:

Goal

Themes

Tools

4

Reconcile performance with interpretability and structure-awareness

Formalizing intuitive desiderata about interpretability

Don't coerce structure - model it

Replace complex models with explicit optimization

Sensitivity analysis, optimal transport, submodular optimization

My PhD work:
in a nutshell

Goal | Reconcile performance with interpretability and structure-awareness

Themes | Formalizing intuitive desiderata about interpretability

Don't coerce structure - model it

Replace complex models with explicit optimization

Tools | Sensitivity analysis, optimal transport, submodular optimization

Structure in ML

Interpretability and Robustness

Generative Models

Optimal Transport
